

## Student Participation in More than One Sport in a Season

Date: \_\_\_\_\_

Student Athlete Name: \_\_\_\_\_

Parent/Guardian Name: \_\_\_\_\_

The student must declare his/her primary sport. This must be done before the beginning of the season; this cannot be changed.

1. Primary Sport: \_\_\_\_\_
2. Secondary Sport: \_\_\_\_\_

The following regulations apply to the athlete and to the sports:

- The primary sport will take precedence over the secondary sport whenever a dispute arises.
- An athlete must attend practices for both sports to compete in contests (the athlete cannot compete in a contest/game and never practice the sport).
- Head Coaches from both sports will arrange practice schedules with the athlete and his/her parents that reflect the priority of the sports.
- Contest/games take precedence over practice (for example: A soccer game is scheduled for Monday at the same time as track practice. The athlete should attend the soccer game instead of the track practice, regardless of the priority of the sport).
- If there are two contests on the same day, the primary sport will take precedence over the secondary sport.
